SV-04 Battle Rhythm
BCC Concept

During the initial stages of developing crisis, the RCC, may direct the SJFHQ, led by the Operations Team, to coordinate and participate in crisis specific efforts of the RCC HQ (CAT/JPG, etc.). This effort may be as augmentation or in a passive role to support continued SA/SU development for a yet to be determined JTF. Alternatively, it may take the form of mentoring individual personnel and watch standers to participate in various Boards, Centers and Cells as required by the Battle Rhythm in order to maintain the required situational awareness and understanding to conduct operations as an integral part of a JTF.

SJFHQ/JTF Battle Rhythm
